

alexji.dev — 4-page portfolio sitemap

One claim · one action · every page earns its place

Hero — states the claim + one action, nothing else

Claim: AI infrastructure engineer for regulated industries.

Ships procurement-grade systems that survive both a fast product cycle **and** a bank auditor's review.

 **Book a 15-min call**

/work

Proves the claim — 3 case studies, deepest one first

- 1. Shadow** — banking compliance council · 761 tests · Ed25519 attestation · MIT
- 2. Orallexa** — quant trading agent · 5-voice · public Brier calibration log
- 3. Solo Founder OS** — 11-agent stack · 500+ tests · PyPI live

/about

Who — 90 seconds, no fluff

Yeshiva Katz School — MS Computer Science.

Founder-mode. Dozens of shipped systems.

Method: tests first · calibrate honestly · ship rapidly.

/contact

How to act — one CTA, three surfaces

Calendly · email · GitHub

 **Book a 15-min call**

*Deliberately no /blog · no /projects grid · no /services · no /resume page.
Every page earns its place against the claim and the one action.*
